

**American Red Cross “Learn to Swim” Course Descriptions for
Herbert Hasell Pool**

Infant and Preschool Aquatic Program: (Ages 6 months to 5 years) these are the perfect courses for first time introduction to basic water exploration and Primary skill development. The goal of these courses is to develop a high comfort level in and around the water.

“Parent/Tot” 6mos.-3yrs. Parent participation is mandatory.

“Aqua Tots” 4-5yrs. Children are in classes of 6 students per instructor.

Fun strokes I: (ages 6 yr. and up) this course is ideal for the student who is ready to learn elementary skills that include: floating, kicking, beginner strokes, basic water exploration and safety and rescue skills. Students will also learn combined strokes.

Fun strokes II: (ages 7yrs. and up) this course is designed for the student who can swim combined strokes and is ready to move into deep water. Instructors work to develop confidence and competency in aquatic locomotion and safety.

Stroke masters: (ages 9yrs. and up) this course is for students who swim at an advanced level. Skills taught will include butterfly, flip turns, and dives. Classes focus on stroke refinement and skill proficiency.

(Parents please note that it may take more than one time taking a class for your child to advance to the next level.)

Never to Late: (adult) This course is perfect for the adult beginner who wishes to conquer their fear of the water, learn beginner strokes, or achieve the ability to swim comfortably.

Swim Camp: (ages 6-13) Introduction to competitive swimming

Please sit on the chairs while waiting for your lesson to start or while watching your child’s lesson. We limit class sizes to 6- 8 in the beginner classes and 10 in the advanced classes so each swimmer gets the individualized attention needed. Children in the Parent/Tot classes must wear swim diapers with a bathing suit over it. Thank you.
